

“Our faces mirror the forest’s rich silts,
Deep, dark and full of life.”

“We explore the colours of darkness.”

In search of ...
honey,
tamarind,
prawns,
and fish.”

“The creatures of the dark are our friends.

The winged ones ...

the crawling ones ...

the slithering ones ...”

*“We close our eyes and hear the darkness speak,
And trust the forest to lead us to all that we seek.”*
